

Tells Of New Highway To Serve Mokena, Frankfort

Mokena 1985. By that time the community is expected to have a population of some 21,000 and Wolf Rd. shifted and tunred into a freeway. It would have its beginning at the top of the state and extend south to the top of Green Garden township below Frankfort. There it would turn east and after passing between Crete and Steger, plunge into Indiana to connect with U.S. 41, the north and south road thru the Hoosier State which links Chicagoland with Florida.

That is what Ralph Wehner and Ronald Havel foretold in a meeting with Mokena officials Monday night and it is what they are expected to tell Frankfort leaders next Tuesday night. Wehner, an engineer with the Illinois Department of Highways, and Havel, an engineer with H.W. Lochner & Co., have been participating in the Joliet Area Transportation Study.

Their look into the future is based on the facts they come up with in their studies and feed into a computer that comes up figures and answers. The computer is given a fresh batch of information to digest every six months so they point out that the answers they get are bound to change from time to time.

Right now, and this is not a computer talking but a highway engineer, a triple tier interchange on the west side of Joliet will be holding up completion of I-80 for another two years and it is expected that it will be 1968 before the paving of that highway is completed between Hazel Crest and Joliet. Wehner said the state hoped to have the contract let for the building of the road itself between Wolf Rd. and Harlem Av. by October but that it would probably be early in 1968 before the work was completed. The contract for cloverleaf interchange of I-80 and U.S. 45 in the vicinity of 183d St. and the moving of U.S. 45 west of its present route between 183d and 19st, will be a separate letting.

It is likely, the transportation study men said, that U.S. 45 will become a 4-lane highway. They are not going off the deep end about the future, computer or no computer so queries about U.S. 30 drew a suggestion of a shrug and a lift of the eyebrows. U.S. 30 among the

highways in this area is something like an aged and ailing cousin left to the care of wealthy relatives who are much concerned with their own problems and never knew him very well anyway.

The transportation study people are presenting their findings to the communities involved and asking for suggestions and recommendations from these sources as to plans for the future. The marks they have on the maps today in blue and orange and black and green are by no means final. As the study progresses and the computer spews out new figures there will be changes in the planning, Mokena officials were told, and the desires of communities will be met where possible.

The principal problem taken up with Mokena officials was the routing of the new Wolf Rd., which is to become a four-lane with median strip freeway. Should it pass thru Mokena to the west of its present location or should it pass to the east -- say in the vicinity of 108th or 104th Av.?

If the west route was taken it probably would be more expensive because a large

PTA Council Will Meet At Manhattan

Any parent or teacher interested is invited to attend. All superintendents, principals, and school board members of Beecher, Frankfort, Lincoln Estates, Manhattan, Mokena, and Peotone have been invited to assist.

Ask OK On Summit Hill School Tax

The voters of Summit Hill District 161 are being asked to approve an increase in the educational fund tax rate on September 24, 1966. This request is based upon the climbing costs of operating the school program.

The last increase in the educational tax rate was in 1960. The school population has grown from 58 pupils to approximately 400 students this fall.

The assessed valuation behind each pupil has dropped drastically from \$43,097 in 1960 to \$11,227.00 in 1966. The fact that the increasing value of the district has not kept pace with the increasing enrollment is reflected in the amount of money that has to be borrowed each year.

The law limits the amount that may be borrowed any one year, to not more than 75% of the tax levy. The district has reached the point of not being able to borrow

number of homes would be involved, it was said. If it follows the route east of Mokena it would run thru what is intended for industrial purposes. State engineers like it on the east side. Mayor Erick Book told Wehner Monday night in answer to a question that he would have to give the matter considerable study before arriving at a conclusion and he believed that board members felt the same.

Wolf Rd. would connect with I-80, it was pointed out, and eventually there would be interchanges at ground level at Mokena. The transportation study people believe that eventually there will be an interchange at Cedar Rd. and I-80, a proposal on which New Lenox has been urging.

New Lenox is in this transportation study too but it is included in the urban section with Joliet and Lockport. The highway future was discussed at a village meeting in New Lenox last Thursday night. Plans for location of I-61, which would be a new Rt. 53 are now set, it was reported. This highway would come from the north and connect with I-80 near Cedar Rd.

The highway people do have some plans for U.S. 30 west of New Lenox where it will have one of those fish hook interchanges with I-80. It is planned to widen Rt. 30 west of New Lenox to four lanes, for a short distance at least.

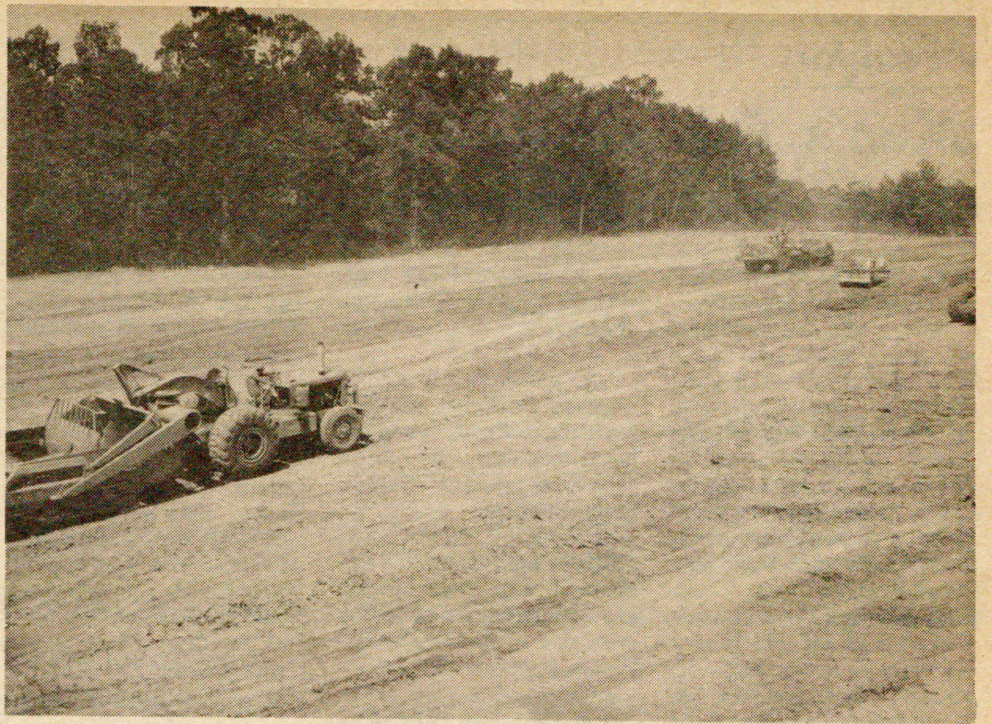

Existing roads will not be abandoned, if and when new roads are built, the transportation study people said, but will continue to operate. The present route of Wolf Rd. would continue to serve the public but probably under a new name. The new freeway would pass to the west of Frankfort and continue south for approximately a mile and a half before turning to the east.

The meeting at Frankfort will be at 7:15 next Tuesday evening and all interested citizens are invited to join the village board, plan commission and Chamber of Commerce in attending the session.

enough money to maintain an adequate program for the increasing number of pupils in school each year, school officials said.

The voters of District 161 have met the challenge of an increasing student body by their fine support of bond issues for buildings. They are now being asked to support the educational programs that the children should have.

It has been necessary for the school board to borrow \$20,000 for each of the past four years. This has proven to be inadequate, and interest loans have been made (borrowing money from the building fund for educational purposes) to cover the necessary expenses. The law requires this money (interest) be repaid out of the first tax monies collected at the beginning of each fiscal year. The net result has been one depressing financial cycle.

NO LONGER just marks on a map or blueprint. The transcontinental east-west expressway, I-80, is at last taking shape in the area. Big machines, manned by crews of Brown-Lambrecht Co. are busy these days moving earth according to the grading plans for I-80, north of U.S. 30 in New Lenox township. The contract has been let for approximately six miles of road construction between U.S. 30, west of New Lenox, and Wolf Rd., north of Mokena. This picture was taken from the Francis Rd. overpass, looking north. Bids on the section between Wolf Rd. and Harlem Av. are expected to be taken soon. It is expected that the cloverleaf at U.S. 45 near 183d St., and the rebuilding of U.S. 45 between 183d and 191st with an overpass over the Rock Island, will be a separate project.

Hope Lights Will Curb Labor Day Road Deaths

"Light Up and Live!"

That is the watch word for the Labor Day Holiday traffic alert which begins tomorrow afternoon, Sept. 2, and runs thru Monday, Sept. 5.

All state, county and local law agencies urge care and caution by holiday drivers as a means to curb the annual slaughter.

Gov. Kerner and members of his Traffic Safety Coordinating Committee ask all drivers to turn on their headlights (not parking lights) day and night during this period. It is the hope of the committee that the sight of these lights will remind drivers to use care and courtesy and so avoid crashes.

Last year the Labor Day holidays took 40 lives in Illinois alone, besides causing injury to hundreds of persons and sending the property damage total soaring. In the nation there were 765 lives snuffed out in traffic mishaps.

Altho commonly referred to as "traffic accidents," safety experts point out, a great number of them should be listed as "traffic carelessness." By drivers being alert and having their cars under control most crashes and collisions could be avoided, the safety people say.

To avoid traffic smashups every driver must see and be seen by other drivers, it was said, and the Governor's Safety Committee believes the headlights will aid in this regard.

"Daily death rates during last year's Labor Day holidays were more than double the average death rate for the rest of the year," a committee spokesman said. "Many of these victims would have been saved if they had been seen in time to avoid the crash. Make sure you turn on your headlights (not parking lights) during the daylight hours this Labor Day weekend. Make sure the 'other guy' can see you in time."

Secretary of State Paul Powell, thru whose office auto license plates and drivers' licenses are issued, in his capacity as president of the Midwestern Region Military - Civilian Traffic Safety Conference, has urged all postmasters and other directors of federal agencies and military installations in the state to encourage their employees to join in the

"Light Up and Live" campaign.

"Coupled with observance of traffic laws and rules of the road, alertness and common courtesy," Powell said, "the campaign can put a halt to the upward spiral of lives uselessly lost."

Persons who plan long trips should get an early start, safety experts say, so that he does not feel pressed for time, and drives accordingly. Rest is quite important, it was pointed out, so that a good night's sleep is vital before starting out on a long journey.

Mokena Lions Join Peace Plan Contest

The youth of the Mokena area have been given a challenge to develop a plan for world peace by their local Lions Club -- a challenge that could earn one of them a \$25,000 educational or career assistance grant.

The Mokena Lions Club, together with Lions Clubs thruout the world, is sponsoring a world-wide essay contest for the world's youth on the most important world subject today--peace.

The contest offers \$50,000 in total awards, including the \$25,000 first prize, eight semi-final world regional awards of \$1,000 each and travel expenses for the eight winners to Chicago in July, 1967. At that time the first prize winner will be chosen from the eight. Also more than 20,000 local, district and multiple district awards will be made.

"We are hopeful one of our young people will win this world-wide prestige award," said James Marti, president of the Mokena Lions Club in announcing the contest locally this week.

The contest is open to young people who will be 14 but less than 22 years old as of Jan. 15, 1967, was announced by Edward M.

Lindsey, of Lawrenceburg, Tenn., president of Lions International at the International convention in New York.

Mr. Marti, head of the Mokena club, explained that the contest is divided into eight world divisions for the \$1,000 prizes.

"Our club's winner will advance to Lions District 1-B competition in his or her effort to qualify for the multiple district contest," Marti said. "The purpose of the contest is to develop a formula for world peace because we believe peace is attainable. We want to alert our youth to the need for world peace and focus attention on that important goal."

Contestants should submit their entries in essay form, not to exceed 5,000 words. Judging will fall into four categories; 75 percent of the essay's points will be devoted to content, 10 percent to organization, 10 percent to style and 5 percent to mechanics. The mechanics segment will be used to appraise the grammatical construction, it was explained.

John Homerding, Former Resident, Dies At Aurora

Funeral services were held Monday, Aug. 29 at 1 p.m. at Schmaedeke Funeral Home, 143rd. and Southwest Hwy., Orland Park, for John Homerding of Plainfield and formerly of Orland Park.

Mr. Homerding died Aug. 26 at Copley Memorial Hospital in Aurora following a brief illness. Born in Homer Township, Will County, on March 19, 1878, he had farmed in this area all his life until he retired some years ago.

He was preceded in death by his wife, Margaret, nee Heinz, a daughter, Leona Wagner, five brothers, Thomas, Mathias, Peter, William, and Bernard; three sisters, Katherine Stein, Clara Stein, and Susan Vincent.

He is survived by sons, Jack of Plainfield, Ralph of Tinley Park, and one sister, Bertha Cleveland of Orland Park, nine grandchildren and eleven great grandchildren. Burial was in a local cemetery.

gust meeting. Mayor Erick Book and Trustees Clarence Zugenbuehler and Roy Richardson were appointed to the board of local improvements.

Appointment by Mayor Book of James F. Quinn as chairman of the village zoning board of appeals, was approved by the village trustees.

Earlier in the meeting Quinn served as spokesman for a group of residents on Parker St. relative to installation of water lines from the village main to the property line of each house owner. The people on Parker, he said, were of the opinion that the village should bear this expense.

When the board pointed out that the present ordinance requires the owner to pay the expense of installing and maintaining his water line from his house to the vil-

lage main, Quinn suggested the ordinance be amended so the village would pay for bringing the line from the main to the users property. Board members indicated that such a step would be taken only if the tap-on fee was raised to compensate the village for such extra expense. When Quinn asked why the expense of installing these lines was not included in the water bond issue he was told there were two reasons--one the water ordinance just referred to and the other was that the bond issue was the maximum amount that could be raised in that manner at that time.

Welsch Lumber Co. wrote the board, commending it on the excellent job of repairing the intersection at McGovney St. and Wolf Rd.

MRS. EDWARD HOVI
Telephone: 479-5740
School days are upon us again with the Arbury Hills School re-opening today, Sept. 1. Next Thursday evening, Sept. 8, will see the first meeting of the fall season for the Summit Hill Parent - Teacher Group.

The meetings will, as in past years, be held in the school on the second Thursday of each school month, and will begin promptly at 8 p.m.

The initial meeting will consist of an introduction of the new superintendent of the school, William Avila, who will, in turn, introduce the members of the faculty. Supt. Avila will give a short address pertaining to the upcoming tax referendum concerning the school.

This will be a general information meeting which will be of interest to all, both newcomers to the area, and parents of the first graders, but also to those who have attended in previous years.

The First Nighters Club will hold their first get together of the new season following a summer break. The meeting will be held at the home of Mrs. Faye Erkmann of 19320 South Beechnut Drive tonight, Thursday evening, Sept. 1, beginning at 8 o'clock.

The Arbury Hills Boys Baseball League is having a repeat sponsorship of last year's Candlelight Bowling Party. It will be held at Art's Amusement Center in Harvey, on Saturday evening, Oct. 1. Tickets for the affair will be \$3.50 per person on a first come first served basis with no tickets being saved. There will be only one hundred tickets sold. They may be obtained immediately from Connie Karp, chairman for the affair. Mr. Karp's address is 9401 West Birch Av. and the telephone number is 479-9660.

Included in the price of the admission ticket is a full and varied evening of fun beginning at 8:00 until 9:00 for

roller skating for those who are so inclined. This warm-up will be followed by a cocktail "hour" from 9:00 until 11 during which time drinks are "on the house". From 11 until 12 midnight you are on your own, and the candlelight bowling will begin at midnight and will consist of three games each.

This gives you a whole month to practice up on smiling and laughing to put you in good form for a refreshing evening of fun for all.

Dig in your piggy bank and hurry over for your ticket before they are all gone. Remember the cost is only \$3.50 per person for an all-inclusive price, and only one hundred tickets will be sold.

A pair of birthday parties at the Louis household last week saw the Louis children in smiling faces and mama in shock.

Danny led off the marathon with his fourth birthday celebration with his friends coming early, followed by Susan and her second birthday party with an assortment of little ones and thank heavens, their mothers too. Lots of fun for the kids and an aspirin break for the moms.

Golda and Walter Plumy and their two sons, Michael and Dennis, former resident of Arbury Hills spent a weekend in our town and stayed with their good friends the Archie Estes family, and managed to visit many of their friends before returning to their home at Kansas City, Mo.

Your most expensive garden tool is your lawn mower. With proper care it should give many years of service. However, if not properly handled, it can wear out in one season. A simple, inexpensive maintenance routine is, therefore, time well invested.

First of all, consider oil. It should be changed after each 25 hours of operation and more often if working conditions are extremely dirty. For people with small lawns, this may mean only one change a season. SAE 20 or 30 oil, designated MS is satisfactory. Fill the crankcase to the proper level and maintain it at all times.

Occasionally there will be a two-cycle engine on a lawn mower. These engines are lubricated in an entirely different way.

They have no crankcase oil reservoirs and are lubricated by adding oil to the gasoline. Under no circumstances should you run your two-cycle engine on gasoline with no oil added. Unless your engine manual states otherwise, add one-half pint SAE 30 oil to each gallon of gasoline.

Use only regular gasoline, too. Low compression engines don't need premium grades of gasoline. They also build up lead deposits quicker than regular gasoline.

Give air cleaners regular attention. Empty, clean and refill oil bath type cleaners with the same kind of oil used in the crankcase. Dirty, dusty conditions makes frequent servicing necessary.

Keep the blade or blades sharp at all times. Sharp blades cut better and reduce engine wear by requiring less power. Grass cut with a dull mower will be torn instead of cut. This will cause the ragged torn edge to die back a short distance. The lawn will then have an overall yellow appearance. Rotary mower blades are sharpened with a file or grinding wheel. Take care to maintain the balance of both ends of the blade.

Only a professional with proper equipment should sharpen reel-type mower blades.

When performing service functions such as oil changing and blade sharpening, you will have to tip the mower on its side. Always tip with the carburetor on the high side. This prevents crankcase oil from flowing into the cylinder.

Finally, always follow good safety practices. Never refuel an engine when it is hot. Keep gasoline stored in a metal can. And, disconnect the spark plug wire before doing any work on the engine or mower.

CSF Adult Education Offers Montessori, Modern Philosophy

A course in modern philosophy and a Montessori course for parents will comprise the program of the Adult Education Division of the College of St. Francis for the 1966 fall session starting Sept. 27. A continuation of the film program has been tentatively deferred to the second semester.

The Montessori course for parents, altho a timely complement to the Joliet Montessori School program, is distinct from it in so far as it is sponsored entirely by the CSF Adult Education Division. The purpose of the course is to acquaint parents with the Montessori approach. Developed by Maria Montessori, the approach is a psychologically rooted method of educating children and stresses the desirability of beginning this education with the pre-school child. Lectures will be given by

Miss Hildegard Solzbacher, administrator of the Milwaukee Montessori School and by Miss Mary Ann Banta, director of the Joliet Montessori School.

Dates for the fall session are Sept. 27 to Nov. 15, every Tuesday evening. Classes will convene at 8:00 p.m. in St. Albert Hall on the college campus.

Registration fee is \$10 per person. Registration may be made through Sept. 26. Mail application and check to Sister Euthelia, O. S. F. Director of Adult Education, College of St. Francis, 500 Wilcox St., Joliet 60435 or call in person at Tower Hall. Information may be had by calling 726-6228.

The ceremony of installation consisted of six main parts: the solemn entry into the cathedral, the reading of the papal documents of appointment, a prayer for the bishop, the enthronement itself, the pledge of obedience to the new bishop, and mass.

The entry of Bishop Blanchette and the installing prelate, Archbishop John P. Cody of Chicago, was accompanied by the Cathedral Choristers, under the direction of Peter Labella, singing "Sine Nomine", "For All the Saints" by How-Williams, and a hymn of welcome, "Behold the Great Priest", by Singenberger. The organist was Robert Pirc.

The papal documents of appointment were read to the people after the procession reached the altar by the Very Rev. Daniel L. Ryan, chancellor of the diocese. These were documents from Pope Paul VI

proclaiming the new bishop, and asking the people of the diocese to receive their new shepherd with devotion and reverence.

A prayer for the new bishop, said by the rector of the cathedral, the Rt. Rev. Msgr. Edwin V. Hoover, asked God to "enable him to further by his teaching and example the salvation of those over whom he is placed."

The installing prelate, Archbishop Cody, then escorted Bishop Blanchette to his throne and placed the crozier, the symbol of episcopal authority, in his hand. The religious and secular clergy of the diocese, and representatives of the laity then approached Bishop Blanchette and kissed his ring as a pledge of reverence and obedience.

A solemn concelebrated Mass followed the ceremonies of installation. Concelebrants were the bishops of the State of Illinois. The Most Rev. Ernest Primeau, bishop of Manchester, N. H., who was one of Bishop Blanchette's co-consecrators, was also a concelebrant at the mass. Assistant deacons of the mass were the Very Rev. Msgr. Edward Nuzskowski and the Rev. James Murray of the

ENTERTAINMENT BY RICKIE DUNN

Rickie Dunn has shaped himself a funny and plenty intriguing Turn here, an act that takes some mighty Quick work to put Across. Billed as "Mr. Pickpocket Himself" he works with A couple of volunteers from the audience and robs them of Everything from their watches to their belts. Its done with Such speed and skill that neither his victims nor audience Are aware of What's Happening.

Here's Tinley Park's biggest
event of the year . . . Bring your
entire family, bring your friends,
plan to spend the day, make up
a picnic lunch and enjoy the big

all kinds of local talent, through-
out the Festival week end.

Your Tinley Park Fall Festival

Association of Tinley Park.

ENTERTAINMENT BY LOU PROHUT

Lou Prohut, who seems to give his all in every show, shifted the show back into high gear. The accordion whiz, a regular on "Don McNeil's Breakfast Club," had toes tapping on "Tiger Rag" and hands clapping in time to his polkas.

He also pulled some sound effects out of his 25 - hundred - dollar - accordion including a cow - or, as he said "a lot of Bull" - and a steam locomotive in "the choo choo train". Mr. Prohut also offers some fine old favorites.

I, Robert Boyer, have been re-
quested by We, the people, to make
a public apology to all the readers
of this paper, and especially to a
Mrs. Sally Rogers and her husband,
whose name I will not divulge, and
also to whomever else this may
concern. And that I, Robert Boyer,
had made false statements against
said Sally Rogers, and that these
statements are false. I hope that
she may forgive me. I always was
known as a ladies man, but she did
not reciprocate, therefore my pride
and ego were hurt. She has been a
good friend to all. All the talk I did
about Sally Rogers was a product
of my own makings. I always was
good on long talk but a short mem-
ory. I hope that the people don't
take too unkindly to me because
when old people are left alone too
much, with too much time on their
hands, they are like children they
have to create stories which are
figments of their imagination.
"Revenge is Mine", thus saith the
Lord.

Sincerely,
Robert Boyer

If you're counting on a new VW,
you can stop at \$1,668.

In fact, when it comes to money, a VW will save you a lot of counting after you buy it, too
On gas bills. (It gets about 29 mpg.)
On tires. (They average 40,000 miles.)
It hardly ever needs oil between changes.
And, since the engine is air-cooled you never have to dish out for anti-freeze.
So if you don't like to count, buy a Volkswagen.
It figures.
